OUR STORY

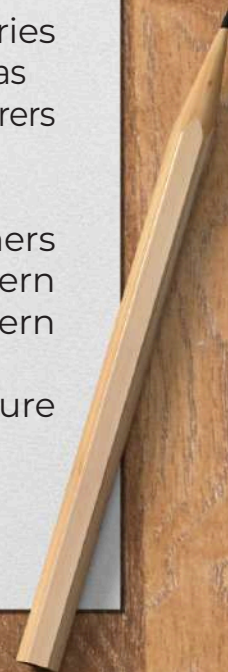

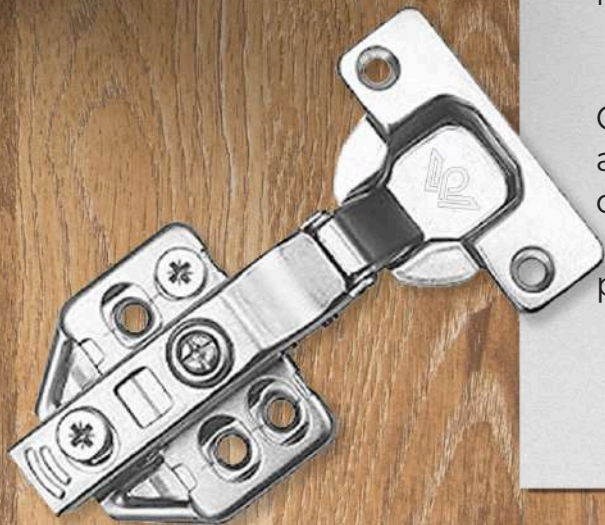

Welcome to Wood Panel,
your gateway to the world of exceptional flooring,
wood panels and furniture hardware.

The company was established in 2022 as a
branch with a group of companies specializing
in building and foundation materials. The

Wood Panel board member has over
25 years of experience
in the field of wood.

We focus on importing woods and accessories
from Europe, Turkey, and China, we also act as
representatives for the world's leading manufacturers
of high-quality, eco-friendly materials.

Our goal is to meet the needs of our customers
and build on their vision in the field of modern
decor by providing materials that blend modern
technology with the beauty of nature.
paying meticulous attention to a detail to ensure
the delivery of products that meet the
requirements of the current era.

OUR VISION

We strive to be a leader in the field of flooring and wood products, providing innovative and high quality solutions to meet our customers' needs and achieve their satisfaction. We aim to be the preferred and reliable brand in the Egyptian market. Our vision depends on innovation, aesthetic design, and superior performance. We seek to provide a wide variety of products that meet the diverse needs of wooden flooring and waterproof flooring. We are also keen to provide the largest variety of wood panels and accessories suited to the tastes in the Egyptian market, while adhering to the highest quality standards in the products.

*We believe in
innovation*

and keep pace with modern times in all forms of decoration and colors using the highest ores for unique and innovative products. We also strive to provide our customers with an excellent customer service and comprehensive product and design information. At the end, we always adhere to long-term and cooperative relationships with our customers and suppliers.

OUR MISSION

We are committed to meeting the needs of our customers through continuous proximity and open communication. We strive to provide our customers with high-quality and exceptionally performing products in the categories of wood panels, flooring, and accessories. Our aim is to achieve complete customer satisfaction by offering a comprehensive and innovative range of products.

We deliver products characterized by their

*Beauty, Diversity,
and Durability.*

We prioritize the use of high-quality wood materials and closely monitor manufacturing processes to produce refined end products with unique and diverse designs that cater to the preferences and requirements of different customers. We also focus on providing environmentally friendly products in accordance with local and international environmental standards, actively seeking sustainability in natural resources and reducing the environmental impact of our products.

Through our specialized and dedicated team, we offer exceptional and distinctive service to our customers. We strive to build a collaborative relationship to achieve their goals and meet their aspirations.

Finally, we work diligently to strike a balance between sourcing products from original suppliers and ensuring their prompt delivery to our customers through the fastest means, all while providing the best services.

OUR BRANDS

FLOORING

we develop design solutions for sophisticated living spaces made from natural raw materials.

We are proud to source our Swiss wood exclusively from sustainable forests and to process it into quality products using resource-conserving manufacturing processes.

What's more, we operate on an entirely carbon-neutral basis, since we are consistently committed to the cascading use of wood as a raw material.

STANDARD:

AC4/KI.S2

The 8mm thick SWISS SYNC CHROME standard laminate flooring of 1380×193mm, synchronized structure and 5G click system is suitable for almost all medium-traffic spaces due to its high abrasion class.

Humid Resistant Chipboards

In the production of green chipboards which are produced in order to be used in humid conditions such as kitchen and bathroom, humid resistant glue and chemicals are used. Moisture resistant sheets are more resistant to water and moisture than regular plates, but this does not mean that it will not be affected by water and moisture at all.
